

BOOT WASHING

Step by step

Your footwear could be carrying harmful poultry diseases – **STOP** and **WASH!**

1 INSPECT

The boot bath / boot mat should be cleaned of organic matter **EVERY** day.

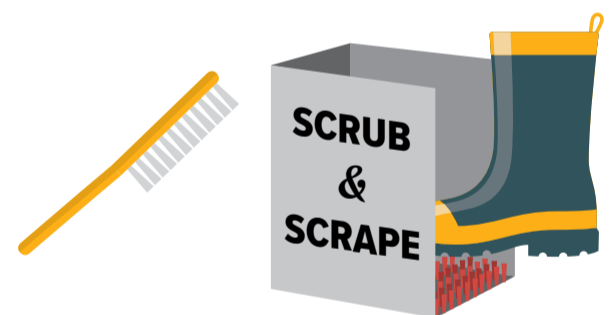

It is **YOUR** responsibility to ensure the bath / mat is clean.

2 CLEAN

REMOVE all dirt and organic matter from your boots using either a brush or boot scraper.

Make sure this is done **AWAY** from the boot bath / mat to prevent contamination.

3 DISINFECT

Place feet in boot bath / boot mat.

Entire sole of boot **MUST** make contact with liquid.

4 ENTER

Enter the production zone.

Don't forget to wash your hands!

**PLEASE
WASH
YOUR HANDS**
