

# VEHICLE WASHING

## Step by step

**ANY VEHICLE ENTERING THE FARM IS A RISK**  
**RESTRICT VEHICLE ENTRY UNLESS VITAL**

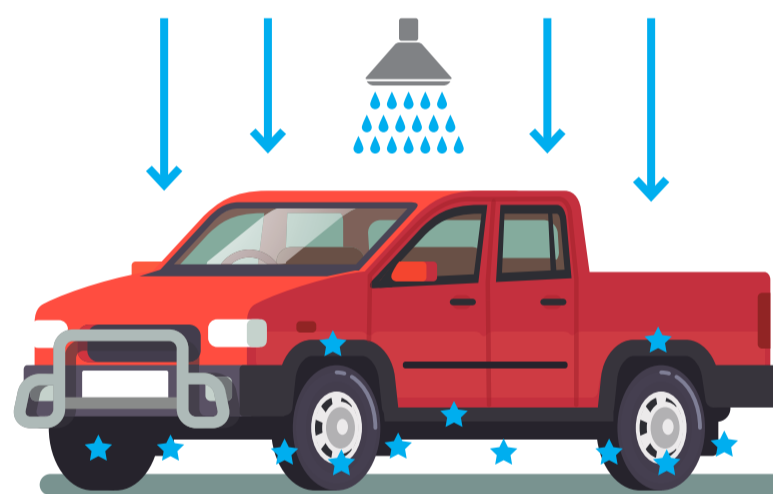

### 1 INSPECT VEHICLE

REMOVE any components which can remain off-site.

### 2 RINSE VEHICLE

- Under HIGH pressure (if possible)
- REMOVE all organic matter
- RINSE from the ↑ top of the vehicle ↓ down

And if the driver needs to hop out of the cab once on-site:

- SANITISE pedals and foot mats
- PROVIDE driver with boot covers

#### PAY ATTENTION TO

- ★ Inner & outer wheel
- ★ Tyre tread
- ★ Wheel arches
- ★ Driver's step
- ★ Mud guard
- ★ Vehicle underside

### 3 DISINFECT VEHICLE

- Under HIGH pressure (if possible)
- Using a BROAD-SPECTRUM disinfectant
- APPLY from the ↑ top of the vehicle ↓ down

LEAVE VEHICLE TO SOAK IN DISINFECTANT FOR **5** MINUTES

### 4 RINSE IN CLEAN WATER
